Lotus District Asso. Passes Resolutions

WOULD HAVE ASSESSMENTS REDUCED — WANT DEMANDS OF U.F.A. RE PROVINCIAL BANK CARRIED OUT—ASK LEGISLATURE TO SECURE SERVICES OF

MARKETING

The last meeting of the Lotus Dis-

Whereas we find the present taxes levied against our land too high and unduly burdensome, and that the same are levied on that account difficult to pay, and are a result therefrom causes property to be sold at public auction for the payment of taxes, and for these reasons should

be revised: 1. We consider that the valuation of land for taxation should be based as near as possible on the average value of its producing capacity (and not as at present on a fictitious standard. 2. The present value

section which is about \$4,000 per half section is absolutely too high, and the entire yield of proportion with its producing capacity. 3. We consider the producing capacity of land in this district on an average to be less than \$1,000 per half section, therefore the sum should constitute the approximate valuation for taxation purposes.

the members of the Lotus District Association and constituency of Redcliff, do hereby petition the Alberta Equalization Board to adjust the land valuation in this district in conformity with this request, and if in case the board has not such powers, the our member, Mr. W. C. Smith, is hereby requested to bring the matter before the Provincial Legislature. And be it further resolved, that copies of this resolution be sent to every local of the U.F.A. in Redcliff and Medicine Hat provincial constituencies, the Premier, Greenfield, W. C. Smith, and the members of the Provincial Legislature.

Re Banking.

In view of the fact that our government seems to be opposed to forming a Provincial Bank as requested by the U.F.A. conventions, 1922 and 1923:

And whereas Prof. McGibbon was appointed to investigate the present banking system-and to take evidence of its function; and whereas such evidence as is now being taken is, we believe, biased;

Therefore, be it resolved, that we request the government to make a special effort to put the demands of the U.F.A. convention into effect; and that Prof. McGibbon's report not be allowed to influence to the contrary.

Re Co-operative Marketing.

Whereas the Provincial Government has announced its intention of looking into the possibility of forming a farmers' co-operative system for marketing of all farm products, and whereas Mr. Aaron Sapiro has expressed his willingness to assist the farmers of Canada in whatever way he can

Therefore, be it resolved, that we request the Hon. Minister of Agriculture to endeavor to acquire the services of Mr. Aaron Sapiro to give a series of lectures through this province, in which such information can be obtained, that will enable the farmers of this province to form a true co-operative system of marketing of farm products, owned, controlled and operated by the farmers themselves, and be it further resolved that the provincial government is hereby requested to work in co-operation with the F.A. in this matter.

Successful Season

The series of whist drives which have been held by the High Bank

The bull ordered by the High Bank Live Stock Association arrived in the district recently, and all are well pleased with him.

At the last meeting of the local secretary was instructed to advise owners of bulls that they must keep them locked up in future. It was so decided that those who refuse

Frank Logelin, shipping agent the U.G.G. for this district, states will be shipping cattle, horses and sheep from all points south of

THURSDAY, APRIL 26, 1923.

IT IS NOT EASY

To apologize,
 To begin over,
 To be unselfish,
 To take advice,
 To admit error,
 To face a sneer,
 To be considerate,
 To keep on trying,
 To avoid mistakes,
 To endure success,
 To keep out of the rut,
 To think and then act,
 To forgive and forget,
 To make the best of little,
 To subdue an unruly temper,
 To maintain a high standard,
 To shoulder a deserved blame,
 To recognize the silver lining—
 But it always pays.

A GOOD EXAMPLE.

One day last week a meeting of the ratepayers of Medicine Hat was held for the purpose of discussing the educational system with a view of trying to arrive at some solution of the financial situation, whereby the expenditures might be cut down to correspond with the prospective revenue. Fortunately for Medicine Hat and the children attending the schools in that city, the meeting, although very representative, was made up largely of fair-minded, level-headed business men, whose eyes were open to the many opportunities and advantages under the circumstances. To be sure there were some at the meeting who were strong in criticism but lacking in constructive suggestions. In these days this is to be expected, but fortunately for the city and the children these were by no means the majority.

The meeting throughout was free from any semblance of spirit, petty jealousies or vindictiveness towards any individual or organization. A meeting of that kind cannot help but have good results and be instructive to all concerned.

At this meeting it was pointed out by the chairman of the School Board that while it would be necessary to make drastic changes which would affect the efficiency of the school for the time being, these changes could easily be made to the best advantage, as the Board had been in consultation with the Teachers' Alliance, and the teachers had shown a willingness to co-operate in making the best of the situation.

It was also brought out at this meeting that the reason for the discrepancy between the usual school expenditures and the present available revenue was the same as is experienced in other centres not far from Medicine Hat, namely, the annual falling off in the payment of taxes; and no attempt was made by any of the ratepayers present to blame this situation on any individual or organization.

As a result of the fair, businesslike manner in which the ratepayers of Medicine Hat faced the school problems, there is not much danger of the schools in that city being closed down even temporarily, and the children made to suffer at this very important part of their school term.

In these times, which are known as the reconstruction period, there is only one way to make reconstruction which will be satisfactory and lasting, and that one way is to approach things which meet readjusting in a spirit of fairness to all concerned.

As a result of the ratepayers' meeting in Medicine Hat and a subsequent meeting of the School Board, where suggestions offered at the ratepayers' meeting were considered, the Board has, in a businesslike way, proceeded to "cut their garment according to their cloth." In doing so they are not asking the teachers to bear the whole burden of reducing their salaries to correspond with the Board's revenue. Instead, it is the Board's intention to abolish some positions and combine others; to raise the school age; to double up grades and so on.

The example set by the ratepayers of Medicine Hat is one which it would be well for other centres to emulate if they should ever be placed in a similar position.

CO-OPERATIVE MARKETING.

The Brooks bulletin says:

"The successful co-operative marketing agency has been strictly made manifest in the Bascom, Brooks district this past season. It proves beyond a doubt, that co-operative marketing, when efficiently handled, can be made into a reality."

It was in connection with the marketing of turkeys last season that the Bulletin made the above statement, and the article goes on to show how the farmers of that district received at least a pound more for their turkeys by a co-operative marketing plan than they otherwise would have made.

CANADA'S "EVOLUTION."

In discussing the visit of an American College professor to Canada recently, the Canadian-American, a weekly paper published in Chicago, says under the above heading:

"Prof. Scott Nearing, an American college faculty man who was ousted from several of our best universities because of his radical beliefs concerning the science of government, has been telling Toronto that Canada is fated for revolution. After looking the Canadians over, the professor decided they were a harmless lot, and would be less bloodthirsty about their forthcoming change than Russia, for instance. But he sees it on that way; it may take a year or two, or two hundred, but it is bound to come."

"This is a safe prediction; Canada has been making wonderful progress since her Confederation in 1867, and her future is beautiful with the sunshine of a prosperity that will outdistance most other countries. As she goes forward, she will grow wiser as well as richer, and many reforms in legislation and government will mark her advancement as an enlightened Commonwealth."

"But Prof. Nearing's insinuation that Canada is on the verge of revolution, which is a fatal essence of all ill apprehension to the working class; is more ridiculous than his prophecies concerning the tendencies of governmental change in the United States. He and his ilk have been forecasting the downfall of Uncle Sam's system for years, and the ascendancy of leaders like Senator La Follette, whom the Bolsheviks of Russia look upon as their political colleague."

Manitoba is to have two plebiscites on the liquor question in June. It is to be hoped the dates are far enough apart to allow the people to get sobered up between votes.

Experimental farms throughout the country are now advising farmers in all parts of Canada to go into the bus business. It is something that can be started in a small way and grow rapidly, and besides, it has proven a money-maker.

Bank Competition
Too Keen to Lend
Farmers Money

"The banks are in too keen competition to lend to the farming community," said Sir Frederick Williams-Taylor, president of the Canadian Bankers' Association, and general manager of the Bank of Montreal, when examined by T. Shaw, Independent member of the Legislature, before the banking and commerce committee on Monday. "The main difficulty in the west was crop failure, Sir Frederick said, and in such cases the banks show the utmost consideration to the farmer, and would extend credit for another year if there was prospect of success. Mr. Shaw asked why the banks charged more than the ordinary maximum rate of interest in the west. "Because," was the reply, "of 1,219 branch banks operating in western Canada, 419 are operating at a loss."

"That is your justification for violating the law?" queried Mr. Shaw. "I object to the word 'violation,'" said Sir Frederick.

Mr. Shaw asked Sir Frederick's opinion of the wisdom of having revision of the Bank act by the Legislature. "God forbid," said Sir Frederick. Sir Frederick said that the banks had agreed upon the three percent rate of interest paid to depositors.

Here and There

Canada's export trade grew \$174,000,000 in the first eleven months of the fiscal year ending March 31st.

A recent and popular Canadian Pacific appointment is that of Mr. Walter Maughan to Steamship Passenger Manager. The appointment includes management of the company's passenger service between the Atlantic and Pacific coasts.

Fire insurance companies found 1922 the most disastrous year for more than 25. The total losses to premiums was \$384 per cent. The companies' losses were \$148 per cent. The companies' losses were \$148 per cent. The companies' losses were \$148 per cent.

A gold rush is in full swing and it is expected to bring about the development of more mining camps in the counties of Timiskaming and Abitibi. It was disclosed that these two counties early in 1922. The gold rush was in full swing and it is expected to bring about the development of more mining camps in the counties of Timiskaming and Abitibi. It was disclosed that these two counties early in 1922.

In the last fiscal year, Canada produced 1,283,000 pounds of butter from the United States, 237,000 pounds from Australia and 2,254,000 pounds from New Zealand. The total exports of Canadian butter were 4,434,000 pounds.

It is announced that the running schedule of the Trans-Canada Limited, which will begin between Montreal, Toronto and Vancouver, commencing May 20th, has been cut down one hour. Considering the size of the equipment and luxurious appointments and the long distances covered on time performance, this is the finest long distance train in the world.

Bungalow camps, such as are operated in the Canadian Rockies, are to be built in the French River, Nipigon Bay and the Muskoka districts of Ontario by the Canadian Pacific Railway. The company will construct and maintain these bungalow camps to offer lower rates than standard hotels. The first three will be ready for occupation by July 1st.

According to a recent rearrangement of ports of call, the Orient, the Canadian Pacific Steamship Limited, by omitting Manila as a port of call between Hong Kong and the United States and Europe. This makes possible a saving service from London, England, via Canadian Pacific Atlantic Express to Quebec and via Vancouver and via Canadian Pacific Express to Hong Kong under 28 days.

During the year 1922 the Canadian Pacific Railway handled a total of 4,435,253 pieces of baggage as compared with 4,770,716 for the previous year. Of this amount 1,171,335 pieces were passengers' baggage which compared with 1,248,443 for the previous year. The 1922 figures were handled, 15,333 dogs travelled as baggage and 23,240 baby carriages were moved. There was also a considerable increase in the movement of mail. In 1922, the Company moved 1,624,187 cases as against 1,614,791 in 1921; and it is remarkable that most of this increase was in the three provinces, Manitoba, Saskatchewan and Alberta, which is an apparent indication of the further development of mixed farming in those provinces.

One of the best examples of a town "growing up overnight" is that of Climax, the end of steel on the Canadian-American branch of the Canadian Pacific Railway. All this there was on the quarter section February 18th, the day on which the steel was first cut. The town was a "boomtown" and a small town. Then the steel was laid in Climax at March 18th there was a restaurant, one roomy house, over a store of clothing, two blacksmith's shops, a drug store, some farming implements, a big general store, pool room and bar. The town was a "boomtown" and a small town. Then the steel was laid in Climax at March 18th there was a restaurant, one roomy house, over a store of clothing, two blacksmith's shops, a drug store, some farming implements, a big general store, pool room and bar. The town was a "boomtown" and a small town.

It is, but not on the rate of current. In reply to William Irvine, (Laird, East Calgary), the witness said the government had issued \$20,000,000 of what might be called "hot" money during the war. Sir Frederick called these Dominion notes "hot" because they were not issued under the law requiring a certain proportion of gold behind them.

County All Right
Conditions Are Wrong

While much of the evidence taken by the special committee of the Federal House to inquire into agricultural conditions is of a pessimistic nature, and in some cases is not very good advertising for the west, yet most of the witnesses give a little of the silver lining. Here is a sample of the latter: "The country is all right, we have faith in it; what is wrong is the conditions created by law, not the natural conditions; it is the artificial conditions which must be remedied. Give us a chance."

MUNICIPALITIES GET
R.C. LIQUOR PROFITS.

Something more than half a million dollars will be distributed shortly amongst municipalities and hospitals of British Columbia by the provincial liquor control board as their share of liquor profits during the past fiscal year. Profits for that year were more than \$1,600,000, the exact figure being available. An interim distribution of profits last fall gave the municipalities and hospitals a sum of

\$311,000, and a further division of profits is about ready to be made, the attorney-general's department understands.

LARGE SHIPMENT OF CATTLE TO ENGLAND
 The largest individual cattle shipment from Montreal since the lifting of the British embargo called Wednesday, the shipment comprised 532 steers, which arrived from Toronto and Winnipeg. The steers were undertaken by cattle exporters to be far the finest since the resumption of the trade.

School Inspector McGregor was in town yesterday inspecting the school.

Charlie Chapman here on Monday morning for Spokane to visit his sister.

Mrs. E. Hurland, of the East Springs district, spent a few days in town this week, the guest of Mr. D. Broadfoot.

When a man starts boasting about what he has done or can do with his fist, it is a sure sign he isn't much confidence in his head or his heart.

St. Ambrose W.A. will hold their spring sale of fancy work and home cooking in the parish hall on Saturday April 29, from 9 to 6 o'clock.

J. Jardine has a complete line of Sultans from \$30.00 up. An expert will be here Friday and Saturday, who will assist in serving customers. Fit and workmanship guaranteed.

The general monthly meeting of the Y.M.C. will be held in the club room on Sunday afternoon, April 29th, at three o'clock. As important business will be transacted a full attendance is requested.

Mrs. Schmidt was taken to the Medicine Hat hospital on Monday morning and on Tuesday she was operated on for serious internal trouble. The operation was a successful one and according to latest reports Mrs. Schmidt's condition was satisfactory.

A very successful social and sale was held in Gordon house last Sunday last Saturday afternoon under the auspices of the Medicine Hat Y.M.C. church. There was a good attendance and the many attractive articles offered for sale found ready buyers. As a result the fund added a nice sum to their bank account.

According to the town bylaw all the stores in town will close every Wednesday afternoon for the summer months. The bylaw goes into effect next Wednesday. On that day and every Wednesday following the stores will close at one o'clock and remain closed for the balance of the afternoon.

Members of St. Ambrose church held a reception in the parish hall last Monday evening in honor of Rev. J. N. H. Mills and Mrs. Mills. A pleasant social evening was spent and the musical program rendered added much to the success of the evening. Mr. Mills is taking Mr. Cronin's work here during the latter's sojourn in Brandon, Ont.

Many friends here will be glad to learn that Mr. and Mrs. Sam

Miller have decided to leave Redcliff and will shortly move to California, and their son, who is already located there. Mr. and Mrs. Miller are pioneers of Redcliff, having come here when the town started. They have made a number of warm friends who wish them every success in their new home.

Gordon Home met with a nasty accident while riding home from his work on a bicycle. He was travelling at quite a speed when the chain on the bicycle broke, and Gordon was thrown over the handle bars, sustaining serious bruises about the head and hands. His hip was also badly hurt. He was taken to the Medicine Hat hospital, where the X-ray showed that one of the bones in his hip was broken. At the time he was taken up his wounds are not serious.

Are you planning a house dress for the meeting of the Women's Institute on May 2nd, a simple pattern will be put out and demonstrated. For the benefit of those who wish to have their dress cut out at the meeting 1-1/2 yards of material 36 inches wide will be necessary. If constructing material is used for neck and sleeves, 1-1/2 yards of material is needed. Anyone desiring a copy of pattern, please bring paper pattern and scissors. A fee will be served. Those who have already enrolled, please bring membership fee, which is 25c. The meeting will be at Mrs. Walker's home, from 9 to 6 o'clock. Everybody welcome.

COMMUNICATION

Mr. Editor:
Has someone been good enough to give the School Board a free house? I feel that the Board should be thanked for it. If not, when did the School Board acquire a house? What house is it and how did School Board acquire it? Why is it that the janitor was not hired at a salary, so he could rent his own house, water and gas? Of course if you presented board with free house, fine. Could you answer these in next issue?

A TAXPAYER.

In answer to the above questions, might say we have interviewed the chairman of the School Board, who informed us that quarters for the janitor were secured over Dunsmuir & McCormick's store, which is convenient to the school. These quarters were rented by the Board for \$10.00 month, including water and gas. The arrangements made with the new janitor were that he is to be paid \$60.00 a month with living quarters as above outlined, making in all \$84.00 a year for his services. The Board adopted this system, as it was the most economical proposition before them for consideration.
